Mr. Atthri Anand
Co-Founder & CEO, Deepflow Technologies Pvt. Ltd, Kalliaseri

About CPRTTF:

The Council for Promotion, Research & Trade in Traditional Foods, New Delhi (CPRTTF), a Not for profit, registered initiative of food professionals, scientists, technologists and culinary experts for preservation of Indian traditions, culture & heritage, has been working for the last 7 years towards harnessing the potential of sustainable traditional food knowledge system by empowering consumers through easy accessibility of knowledge for making informed choices towards healthy lifestyles. CPRTTF has been equipping traditional food operators and enlightening the consumers by mobilizing human, technological and financial resources towards achieving the global traditional food safety, food & nutritional security in a sustainable manner.

About JAIN (Deemed-to-be University):

Ranked among the top universities in India and considered a cerebral destination for students across the world and Bangalore in particular, for its illustrious history of developing talent, JAIN (Deemed-to-be University) is a hub for learning in every sense of the word. National Assessment and Accreditation Council (NAAC) rates JAIN (Deemed-to-be University) with A++ grade and a GPA of 3.71 on a four-point scale which talks about its position among the leading Universities in our country. The National Institutional Ranking Framework (NIRF) ranks the institution at 79, which is one among the first 100 best institutions of higher education in India. The University has an illustrious history of developing talent, and is known for its emphasis on education, entrepreneurship, research and sports. **Faculty of Engineering & Technology** has emerged as one of the finest and highly renowned engineering institutes in Bengaluru. JU-FET is intently focused on delivering the world-class educational experience to its students. Being one of the best engineering institutes in Bengaluru, JU-FET has recognized that education can even go beyond the boundaries. The Department of Food Technology was established in the year 2014 and is funded by the Ministry of Food Processing Industries (MoFPI) under the scheme Creation of Minor Infrastructure in M. Tech in Food Technology programme. Students are exposed to the value-added programs through MoU and collaborations, which create an opportunity to interact with the eminent personalities from FMCG, research sector and entrepreneurship management. **School of Allied Healthcare & Sciences JAIN (Deemed to be University)**, strives to be a dynamic learning centre that trains professionals in integrated areas of the healthcare industry. We offer unique & comprehensive experience for our undergraduates and post graduates students who are pursuing exciting careers in the medical sciences. Department of Food, Nutrition and Dietetics offers UG and PG programs. It is an integrated and a professional program preparing students to work in various disciplines of Nutritional Sciences, explore how it affects the health of the individual and the nation and also to discover how diet can be used in the treatment of communicable and non-communicable disease. It is a health-related career which involves translating the sciences of nutrition and food to promote good health.

About AFST(I):

The Association of Food Scientists and Technologists (India), established in 1957, is one of the largest professional and educational organizations, with around 4500 members - food scientists and technologists, across the globe. The major objective of AFST(I) is to stimulate and advance knowledge base on various aspects of Food Science and Technology by organizing National and International Conferences and bringing out technical publications including prestigious journals- Journal of Food Science and Technology (JFST) and Indian Food Industry Mag (IFI Mag).

About Global Traditional Foods Summit 2023: The conference aims to bring together leading academic scientists, entrepreneurs, researchers and research scholars to exchange and share their experiences and research results on all aspects of Traditional Foods. It also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Traditional Foods.

Prospective authors are kindly encouraged to contribute to and help shape the conference through submissions of their research abstracts, papers and e-posters. Also, high quality research contributions describing original and unpublished results of conceptual, constructive, empirical, experimental, or theoretical work in all areas of traditional foods, production, processing, preservations and cooking procedures are cordially invited for presentation at the conference. The conference solicits contributions of abstracts, papers and e-posters that address themes and topics of the conference, including figures, tables and references of novel research materials. Culinary Experts, Scientists, technologists and professionals in the field of traditional foods will be requested to submit abstracts on the following themes.

Food Safety Challenges in Traditional Foods- 27th April, 2023 Thursday

Sub Themes: Food Hazards in Traditional foods, its monitoring and mitigation; Food safety control system, Innovations and technology in Food safety.

Start up in Traditional Foods- Opportunities and Export Potential - 28th April, 2023 Friday

Sub Themes: Starting business in Traditional Foods, Export potential in Traditional Food, How I Built This: The Unexpected Paths to Success from The World's Most Inspiring Entrepreneurs (Case studies).

Heritage in Traditional Food Knowledge System- 29th April, 2023 Saturday

Sub Themes: Millets as India's Heritage, Heritage food Concept, Traditional Food as Soft Power, Traditional Food and Nutritional Security, Traditional Food and Tourism Potential. Indigenous food system, Healing with traditional food, Culture and food

Call for abstracts:

Submitted abstracts will be evaluated by the Scientific Committee. If an abstract is accepted, the author will be requested to send a full-text paper, including results, tables, figures and references. All submissions should report original and previously unpublished research results no matter the type of research paper you are presenting. Full-text papers (.docx and .doc) will be accepted by Electronic Submission Form. Manuscripts should meet the format set by the Conference committee and are subject to review.

Key Highlights:

The selected papers shall be considered for publication in journals (ABDC/ Scopus/ Web of Science/ UGC Care), subject to the adherence of the journals review process. The selected papers submitted and presented in GTFS 2023 will be published as conference proceedings. Best Paper Award will be given in each track.

We will take all efforts to ensure that the publication opportunity is given to the authors in the journals supporting the conference. However, no guarantee is given for publication, as each journal has its mandatory requirements and timelines which have to be satisfied before the paper gets accepted and published. A separate publication fee has to be paid by the authors for publication of their manuscript in conference proceedings by an external publisher or as a journal article, which will be informed officially to the author by the organizing team.
